Subject: For your information on behalf of Rector, TU

Dear Sir,

We hope this email finds you well. **On behalf of the Tribhuvan University Centre for International Relations (CIR)**, we are writing to share with you a wonderful scholars training program, requesting you to forward this email **to campuses across TU**. We are organizing this in collaboration with an international scholars' organization called the STAR Scholars Network, involving scholars from across the world.

Titled "Enhancing Academic English," this is a free training opportunity that will greatly benefit working scholars to enhance their academic English skills. In today's globalized academic landscape, effective communication in English is crucial for scholars to share their ideas, collaborate across borders, and contribute meaningfully to their respective fields. Our training program focuses on four key areas of English enhancement: **expanding academic vocabulary, developing pronunciation and intelligibility across borders, cultivating effective academic writing skills, and practicing effective presentation skills**. Together, these modules will help scholars (whether emerging or veteran) to greatly update their academic communication skills to publish and present internationally. By

participating actively, scholars will have the opportunity to overcome shyness, learn from one another's experiences, and contribute to the growth of the wider academic community. By enhancing their academic English skills, scholars will be better equipped to navigate the international academic arena, bolster their research impact, and contribute to the growth of our institution. They will also be able to publish in higher-ranking journals and present more effectively in international conferences and other venues. More details about this program can be found in this program information file.

Could you please forward this email with an encouraging note from you, including the flier attached? If you'd like to include the application link (also included in the program information), it's here: www.tinyurl.com/english4scholars23.

If you have any questions, please let us know. We are more than willing to provide additional details, address any concerns, or arrange a meeting to discuss this program further.

Thank you for your attention, and our team of program organizers from around the world look forward to collaborating with you to empower our fellow scholars in their pursuit of academic excellence.

Sincerely,
Program Organizers

Note: This program is exclusively for university scholars and is completely free.
